A Remarkable Case. About three weeks ago a lady 66 years of age and living near Zion's Church, on Whites Creek, gave birth to a child, Drs. Searcy and Manlove being the attending physicians. Both mother and child are doing well, the child, a girl, being the very picture of health. The lady in question is the mother of several daughters all of whom were married several years ago, and before this new departure, had the happy privilege of paying her attentions to numerous grandchildren. This is certainly a very remarkable case, and we doubt if the medical records show a similar one anywhere. The fortunate father is about the same age of his wifs. All we have to say is, bully for Zion's Church and White's Creek, and may the mother and father live long and prosper, and enjoy many such blessings.

About her swan-like neck was fastened a simple knot of ribbon of the color known as "crushed lilies of the valley." On her brow rested a sweet look of nnocence and a blue checked sun-bonnet. As one gazed upon the graceful figure of the gentle Alice, the natural inquiry arose "What brought this fair young creature here?." It was a policeman. On motion of Dr. Buchanan Mr. Nicholas Hobson was called to the Chair, and olas Hobson was called to the Chair, and Mr. Isaac Litton appointed Secretary. The object of this meeting being stated to be merely for the purpose of inaugurating the association of the old men and to appoint some day on which many of them could Dr. Buchanan said he heartly approved

the convening of old men around Nashville, and their commingling would be produc-tive of much good. Even in the small number collected here, there are some almost a hundred years of age. The places of the old would soon be vacant to be filled by young men, between whom there is not that degree of social intercourse and kindly friendship. The formation of such relations should be encouraged. Some of the old men could relate much of historic interest concerning the troubles and difficulties of those attempting to settle Nashville. The many incidents to be related would be of infinite interest as historic facts to those who are to succeed the old men when they are in the grave. In the meetings we can discuss many subjects of instruction. While the young are taking the lead of public affairs, we can direct their efforts by our experience and knowledge of the past. The speaker, after making more remarks of interest, said he favored a permanent organization of the club. Squire Paul moved that a committee

five be appointed on organization. The motion prevailing, Messrs. Isaac Paul, Wm. Dismukes, A. W. Johnson, A. V. S. Lindsley and Dr. H. R. Buchanan were appointed. On motion of 'Squire Paul the chairman was added to the committee.

The society should have a name and the annual meeting should be a social reunion, a kind of love feast. It was suggested that there are many of the old men who could give advice that would be beneficial to the young if heeded. He respected and revered the wisdom and the counsels of the old. He had found that the old had clear heads and warm hearts. The meeting adjourned to meet at 11

clock April 5, and the committee to meet at A. V. S. Lindsley's office, No. 14 North Market street the Friday before that day. In this connection we would urge the importance as well as the many desirably leasant features why a society of the old olks should be formed. How many ever attain the age of fifty and even when this period is reached, there but few of early friends remain to cheer, not many flowers o bloom on life's withering wreath. The tendency of the present times is too prone to set the old folks into the corner, like useless furniture whose old shape and unconth appearance adds a strange contrast to the occupants of the modern drawing room. The old are too much forgotten and in the dreary loneliness of age, what friend of earlier days, is there to cheer. To the old man each year is but a cemetery of the past and the backward years are only avenues that wind along one side of friendship's graves. The clouds are ever changing, the waters sparkling with renewed beauty or sleeping neath the repose of a milder moonlight; the mountains ever point to-wards the heavens and the sea-wave chants away its new-born melody, and thus it is that nothing in nature ever grows old save the heart. And where only the memories of vanished youth rest with sadness on its nervous loneliness will the drooping spirit

faintly utter, mournfully breathe the words: "O for the touch of a vanished hand Then let the young man in the fresh bloom of life revere the aged man. While the old man may too truthfully say.

A story is told that Henry Ward Beecher called on him once to consult some ancient volume, not to be found elsewhere. Mr. Beecher's name was sent in to Mr. Lenox, who repeated, "Henry Ward Beecher! Henry Ward Beecher!" several times, and supposing him to be some unknown and irresponsible person, returned word that, not having the pieasure of its acquaintance, his request was declined. One of Mr. Lenox's idiosyncrasies is reported to be his unwillingness to read the newspapers, except on 'special occasions; and the result is, that he has no idea what is occurring in the world. It is said that about a week ago, somebody spoke to has been a recluse for many years, and has

cided to build a number of forts on the Austrian and Prussian frontiers. Four of these are to be begun at once. One will be near Proskurow, in Podolia; one near Dulno, in Volhynia; the third at Bialystok, in the Government of Grodno, near the junc-

Having had to children, Mrs. Haire, after our late civil war, visited England and returned with a young lady named Miss Adelaide Gillespie. This young lady, said to be her niece, died in 1867, and Mrs. Haire's relafore being sick, wanted to make another will, but was prevented by reason of physical inability. Owing to this state of affairs, the will of 1850 was read in the presence of friends of the deceased, and no relative being known, have authorized Rev. J. Howard Smith to take charge of the property until Wm. A. Henderson, who was Mrs. Haire's attorney, can inform Arthur Bowen Smith

Supper after morning services. Son of the late Prof. N. Cross, of Nashville, Tenn., the subject of this memoir, died at his home in La Grange, Texas, on the 16th day of February, 1813, after a brief illness of nine days. The deceased, at the close of the war, went to Texas, and soon became a full partner in law with (the lately deceased) Mr. Jarnoo, one of the most eminent lawyers of that State. His constitution being undermined by too close application to a large and lucrative practice, he fell a victim to that terrible disease, hemorrhage of the kidneys.

IN MEMORIAM. At a meeting of the La Grange Bar and officers of the Court and Mayor and Council of the town of La Grange, held for the purpose of taking action relative to the death of their brother member and advocate, Capt. A. H. Cross, Col. B. Timmons was called to the chair, and Thad. T. Alexander, Clerk of the Court, requested to act as Secretary.

sions; and the result is, that he has no idea what is occurring in the world. It is said that, about a week ago, somebody spoke to himof Horace Greeley's death. He remarked that he was not aware of the journalist's decease; he had supposed Mr. Greeley was still the editor of the Atlantic Monthly. It might be imagined that Mr. Lenox had not heard of the discovery of America by Christopher Columbus. I am sure he has, Christopher Columbus. I am sure he has, however, for he has some of the original letters and journals of the renowned Genoese in his possession, and he must, therefore, have learned the fact, of which he might otherwise have remained in perfect ignorance."

The Russian War Department has decided to build a number of forts on the cided to build a number of forts on

the Government of Grodno, near the junction of the railway from Warsaw to St. Petersburg with that from Breat to Grajewo, and the fourth near Wirbailen, the first Russian railway station on the side of Prussia. Each of these forts is to be within a gun-range of the railway crossing, the frontier in its vicinity. They are to be completed in two years' time.

EXTRACT FROM T. T. Alexander's Letter.

"He was homored and beloved by all for his intelligence, purity of heart and honesty of purpose. No one has ever deviated from the path of Christian virtue and rectitude who endeavored to follow the example set by Capt. Cross in his daily walk and conversation. His death is not only a sore affliction to his many friends, but is a public calamity."
